## ARTIST STATEMENT

### **From The Artist — *New Black Swing***

*“Vibes. It’s all about the energy I share, the energy we share with one another. Whether in public or in private, in romance or otherwise. I think about the deepest times in my life and how I dealt with them through them music with a bounce, catchy melodies and poetic sentiments.*”

*I’ve always wanted to write & compose a R&B record, but the fear of ultimate vulnerability & judgement haunted me. Would my Queer Black girl feelings be acceptable? With that said, this is a very intent album. Probably the most intentional record I have composed yet.”*
