

CHARLIE AND THE RAYS

ARTIST STATEMENT

From the Artist —*Charlie and the Rays*

“Politics and music rarely come together in genres outside of punk rock these days, and we hope to bring it back to the folk-rock scene reminiscent of the 60’s. Music is not only our passion and an essential element in our lives, but as songwriters, it is also a way for us to speak to the world and address issues pertinent in our society today. We strive to embody the greatest musicians we can be, creating strong female role models for generations to come.”
